DETAILED ACTION

1. This is the sixth Office action on the merits of Application No. 10/084,385, filed on 28 February 2002. Claims 1-3, 14-15, and 18 are pending.

Documents

2. The following documents have been received and filed as part of the patent application:
 - Information Disclosure Statement, received on 02/28/02
 - Foreign Priority Document, received on 02/28/02
 - Translation of Foreign Priority Document, received on 07/07/04
 - Information Disclosure Statement, received on 08/26/04

Allowable Subject Matter

3. Claims 1-3, 14, 15 and 18 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Claim 1:

The prior art of record fails to show or render obvious a control unit for a power transmission apparatus, as recited in the claim; specifically, wherein the control unit is configured to control the first or second motor so as to suppress a thrust or push-up on torque of the output shaft due to inertia torque after torque transmitted by the second friction clutch coincides substantially with output shaft torque of the engine in conducting a gear-shift through a change-over from the first friction clutch to the second friction clutch.

Art Unit: 3681

Claim 2:

The prior art of record fails to show or render obvious a control unit for a power transmission apparatus, as recited in the claim; specifically, wherein the control unit is configured to control either one of the first motor and the second motor so that a drawn or pull-in on the output shaft is suppressed after an increase in a pressing force upon the second friction clutch starts in conducting gear-shift through change-over from the first friction clutch to the second friction clutch.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
